

About Union Baptist Fellowship, Inc.

Board of Compassion

MERCY is the compassionate arm of Union Baptist Fellowship, Inc. Through MERCY we serve communities with acts of compassion upon citizens in outreach through acts of compassion concerning, health, crime, rehabilitation, human rights and equality, and overall improved quality of life in accord with the example of Jesus Christ. This work includes supporting and advancing human services and community development policy and practices through measurement, evaluation and research, as a means to create positive community change.

support your community needs.

A Ministry Partnership with Union Baptist Fellowship, Inc.

Medicare Coverage for Your Unique Needs

- Do you know what your options are for coverage?
- Do you know which plan is best for you?
- Confused on how to choose?

MERCY is a ministry organized to meet the needs of seniors in our community. We have trained volunteer Navigators who understand the resources available to seniors in our community and know how to give you access to them.

We know that Medicare can be a confusing program, but without the right information you may be leaving benefits on the table. Depending on your income level and other factors you could be saving money on your coverage. Discussing your situation with a Navigator is the best way to find out.

Our Navigators can show you your plan options and help you self-enroll in a plan of your choosing. Meet with a Navigator in person or call our office to learn more.

Medicaid, Social Security and other Community Resources

Our trained volunteer Navigators are familiar with many of the resources available to you through Medicaid and Social Security as well as our ministry and partnerships. MERCY Navigators are members of our community and are available to meet with in person, online or over the phone.

Giving Back to Our Community

Through the generosity of Plan Advisors (a health insurance marketing organization) and Heritage Finance Holdings (a specialized insurance provider to faith-based institutions) we are able to donate the proceeds of every Medicare plan self-enrollment through the Mercy program to help ministries. So while you're helping yourself by getting the best health plan for your needs, you're also helping your church and your community.

Before enrolling in a Medicare plan with someone else, meet with a MERCY Navigator to see if they can guide you through a self-enrollment so you'll help your community while you're helping yourself.
